

BIG BRUMMIE NIGHT SKY...

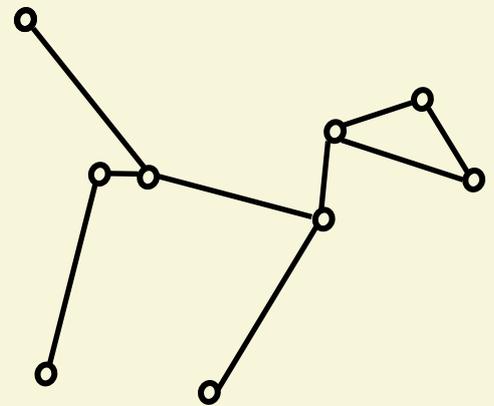

Your BIG Brummie campout is the perfect opportunity to take a good long look at the night sky.

Can you see our very own Birmingham Bull, Taurus?

How about The Great Bear? If you look to the north you might recognize the Big Dipper which makes up the back half of the Great Bear.

Or if you look low in the sky to the south you might be able to spot The Great Dog. His nose is the brightest star in the sky and is often called The Dog Star.
